EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to the applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. John Thomas III, applicant's attorney, on July 31, 2007.

The application has been amended as follows:

In claim 21 line 3, please replace "prepanng" with --preparing--.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The applicant has submitted a 132 Declaration which contains evidence that the applicant's catalyst is materially distinct from the catalyst described in DE 198 36 585 A1 to Plzak in that the applicant's catalyst (when not activated, which is similar to that described in the Plzak reference) produced only water when put in the reactor for two hours. This is surprising and materially distinct from the catalyst of the Plzak reference which exhibited a relatively high rate of oxidizing carbon monoxide after a two hour time period (please see the Table on pg. 15 in the English translation of DE 198 36 585 A1). One of ordinary skill in the art would have expected the applicant's unactivated catalyst to also have oxidized the carbon monoxide after the two hour time period (in the same manner shown in the Table on pg. 15 in the English translation of DE 198 36 585 A1) because

the applicant's unactivated catalyst appears to be superficially similar to that of DE 198 36 585 A1, *but this surprisingly did not occur*. This is evidence that the applicant's catalyst and the catalyst of DE 198 36 585 A1 are materially distinct. All of the applicants' independent claims are limited to the activation of the catalyst, and this is not taught or suggested in DE 198 36 585 A1.

Any comments considered necessary by the applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
